Rough Sketches For Imperfect Colouring

OutofTheLines

Hello!

A Little Something to Get You Started

This little sampler is a doorway into the world of **Home Frames: Rough Sketches for Imperfect Colouring** – a space made for slowing down, grabbing your pencils, and embracing the beauty of imperfection.

Inside, you'll find five original hand-drawn sketches, each one a cosy corner of a home. Like the full book, these pages aren't about staying inside the lines – they're about taking a breath, following your own rhythm, and enjoying the simple pleasure of putting colour on paper.

There's no right way to do it. No pressure to finish. Just start wherever you like, come back when you feel like it, and make these little frames your own.

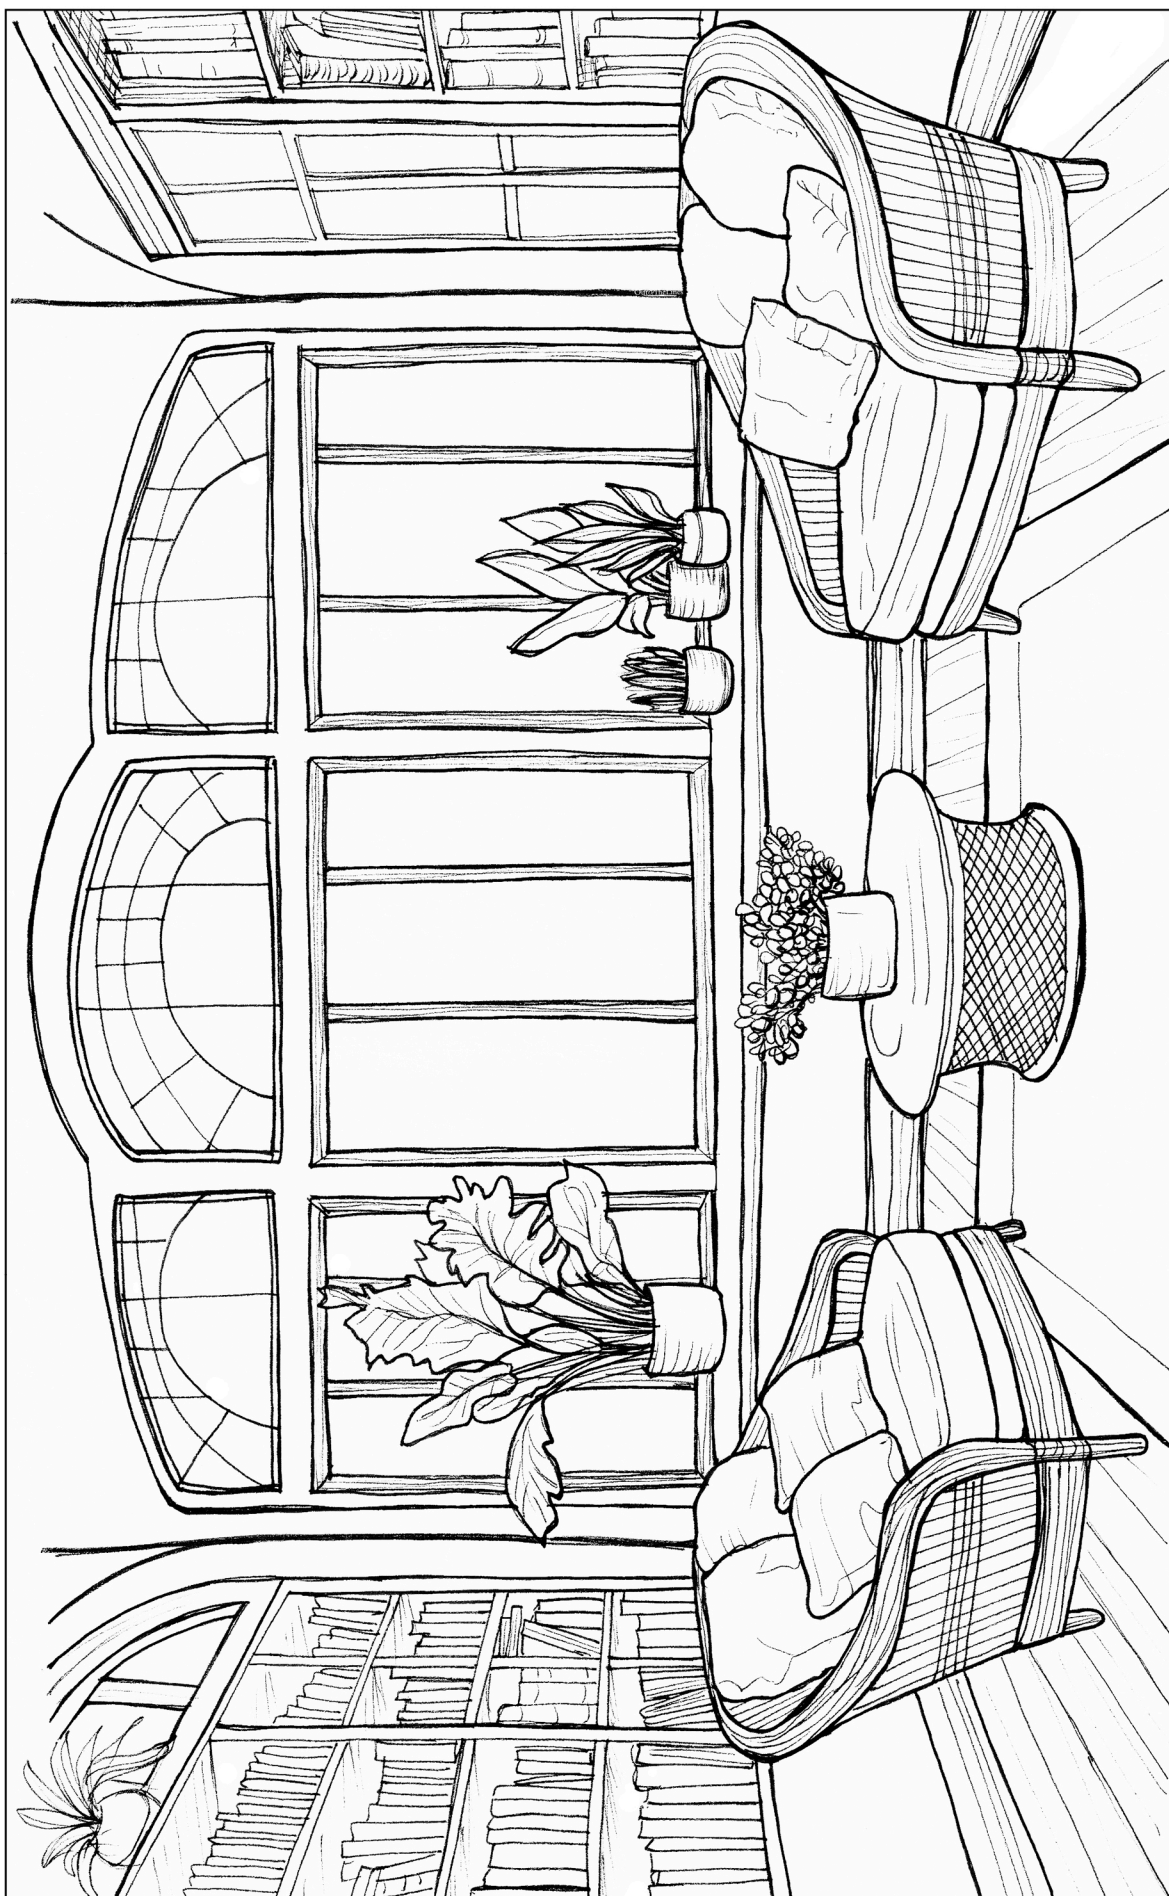

If you enjoy these pages and want more, there is a unique mindful book waiting for you with thirty new spaces to explore.

Happy colouring
